Pre-submitted Q&A

CMMC CONNECT – APRIL 2024

Regarding screening employees (PS 3.9.1) prior to authorizing access to CUI, does this include all current employees or can they be "grand fathered" in?

For non-cloud
MSPs/subcontractors what
will CMMC assessments for
the prime contractor include
to show subs are CMMC
compliant?

Which large prime contractors, if any, have gone on record indicating they will be enforcing flowdown requirements to subcontractors for CMMC L1?

How about L2?

What is the most aggressive likely stance and timeline that a large prime will create and enforce for CMMC flowdown?

What recourse would the prime contractor utilize to address noncompliant downstream suppliers; or put another way, by what means would it be both legal and practical for the prime to enact negative consequences on subcontractors?
