- ✓ Vulnerability and Patch Management
- ✓ CUI and Communication Encryption

Operational Excellence

- ✓ 24/7 Operations Management
- ✓ Real-Time Cloud Spend
- ✓ Managed Detection and Response
- ✓ Log Management
- ✓ Configuration and Change Management

Client Support and Value Addition

- ✓ Value Action Plan
- ✓ Support and Service Level Agreements

With a GCC and CMMC-only focus, Redspin provides specialized Managed Cloud Services that meet the strict requirements of CMMC and federal contracts. Our robust cloud solutions are specifically designed for organizations that need to comply with CMMC standards.

From cloud architecture customization to comprehensive compliance management, our services are tailored to minimize CMMC scope and secure sensitive Controlled Unclassified Information (CUI), and Federal Contracting Information (FCI).

Minimize CMMC Scope & Secure Data

Accelerate Compliance, & Continuous Expertise

Engaging with Redspin not only accelerates your journey towards compliance but ensures continuous monitoring, expert management, and ongoing maintenance of your cloud environment.

Our approach mitigates risks and optimizes cost, making it easier to achieve compliance certifications and enhance your cybersecurity posture. Our commitment to security and compliance in the cloud allows you to focus on your core operations while we handle the complexities of CMMC-aligned cloud management.

Streamline Compliance

Redspin helps move federal contractors to a more secure, compliant, and resilient state to help protect the Defense Industrial Base. As the first Authorized CMMC 3rd Party Assessment Organization (C3PAO), Redspin provides federal contractors with CMMC assessment, training, consulting, managed cloud, managed security, and ongoing compliance maintenance services designed to enable them to meet and comply with CMMC requirements.
